Visual Code Studio

## LANGUAGES

English C1

## PROFILE

I am a determined Multimedia Design student, I have a strong passion for design and a commitment to aligned pixels. I am a creative and flexible person who is able to work effectively both independently and as part of a team.

I am looking for an UX/UI internship. I want to take a part in design processes, learn how to prepare Figma files for a hand-off to developers. I also would love to get a change of working with the clients, I want to learn how to present my design choices to them in an understandable way.

I am proud to hold an IELTS certificate on level C1, which demonstrates my proficiency in English language. In my free time, I enjoy creating and exploring new ideas as well as educating myself on psychology.

## EMPLOYMENT HISTORY

### Receptionist, Salon Pańska 65 Spółka Cywilna Ciarkowska Stangreciak

Warsaw

May 2022 — Aug 2022

My main task was to ensure a positive experience for clients, by handling any concerns in a professional and courteous manner. I also kept client's information confidential and maintained accurate records. It was a challenging and rewarding role that helped me develop my customer service and organizational skills.

I was managing a TikTok account for the salon, where I posted videos of the nail art created by the nail techs. It was also a way of promoting the salon and acquiring new customers.

TikTok: salonpanska65

## EDUCATION

### Robert Schuman High School

Warsaw

Sep 2019 — May 2022

As a high school student, I attended a bilingual class, which placed a strong emphasis on the English language. I have achieved a high level of proficiency, with an IELTS certificate on level C1. I participated in classes such as English Literature, as well as communicative and writing classes. I also had many opportunities to work with native speakers, which allowed me to become comfortable and confident in my spoken language. Additionally, I gained experience working in teams through various science projects and studies. This has allowed me to develop strong language and teamwork skills, which will be valuable assets in my future studies and professional life.

## **Multimedia Design AP, Erhvervsakademi Aarhus**

Aarhus

Aug 2022 — Present

I am learning to use industry-standard software such as Figma, Illustrator and Adobe XD to create visually stunning designs. I am also learning about user experience (UX) and user interface (UI) design, which helps me to create websites and apps that are easy to use and navigate.

I also had a chance to try working with HTML/CSS/JavaScript and WordPress.

---
